

# WHY YOU SHOULD REPORT SEXUAL HARASSMENT

## IT WON'T STOP BY ITSELF

Sexual harassers don't stop unless someone makes them. If nobody takes action, they continue to harass, often escalating their behavior.

## THERE ARE PROBABLY OTHERS

Sexual harassers are predators. They move from one person to the next, unless someone stops them. You might not be the first, but you can be the last.

## THE LAW PROTECTS YOU

The law forbids retaliation against employees who report sexual harassment. If you make a good-faith complaint, your employer may not retaliate against you.

# You are not alone.

Protect yourself.
